Hsiang Han, Hsu

Nursing Student

herbert293@hotmail.com.tw

I have a sense of CARING inside my blood. Being a nurse have always be my dream. I like to deal with people health or emotional problems. The smile that comes after the problem solved is the motivation and happiness of the job. It is always a privilege to involve in the most fragile moment of a person, to take care of him/her, and wo watch them getting better and better in a comfortable way.
