Letter of motivation to apply to Mahidol University

Dear Sir/Madam,

I would like to apply to Mahidol University for my next winter semester 2015/16. I found the university since I am a student of the "Hamm-Lippstadt University Of Applied Sciences", a partner university of Mahidol.

In summer 2013 I graduated from the Mauritius-Gymnasium in Büren with the Abitur. Currently I am studying the course "Computational Visualistics And Design" in the fourth semester at the "Hamm-Lippstadt University Of Applied Sciences". Since the fourth semester I am participating in the focus course "Medical Science, Sports And Human Being".

Because my course of study is very interdisciplinary I already learned both, computer science and design and how to connect both subjects. I am interested in computer science, modelling 3D-models in CAD-programmes as well as working with Adobe Photoshop and Illustrator. I would be pleased to study at Mahidol University to intensify my skills in computer science.
In my free time I play soccer in a woman team. This stresses my ability to work in a team as well as reliability and ambition. I am a member of the "Musikverein Siddinghausen e.V." and play the clarinet.

I would like to learn more about the Thai lifestyle and experience the culture and country. Because I took part in a student exchange program with the "Shanghai Fengxian High School" in China in 2010 I already received a look inside the Chinese culture. Inspired by this journey I would like to extend my knowledge about foreign countries and cultures.

I thank you in advance for your time and consideration.

Yours faithfully,

Franziska Westermeier
