Assoc. Prof. Usa Chaikledkaew, Ph.D.
Deputy Dean for International Relations
Faculty of Pharmacy, Mahidol University

Dear **Assoc. Prof. Usa Chaikledkaew**,

Greetings!

I, **Melchin Edreen Origenes Tapan** from the class 5 - Clinical Pharmacy of the **University of Sto. Tomas Faculty of Pharmacy** would like to submit this letter of intent in application for International Student Mobility Program in **Mahidol University, Faculty of Pharmacy** Bangkok, Thailand from July 2015. I joined this program with the objectives of acquiring new and practical experiences in the field of Pharmaceutical sciences. With this program I expect an extraordinary learning experience working and interacting with their students and professors. I believe that this opportunity would, greatly enhance our understanding about the advancements in modern healthcare sciences and broaden our knowledge and proficiency especially in the different fields of Pharmaceutical Care and Research.

In the years of studying in the Philippines, I have learned a lot and have been exposed to the different areas of pharmaceutical work, from the community setting, to the hospital setting and even in the manufacturing industry. All of the abilities that I have learned have helped me survive in the pursuit of our respective fields and now the International Student Mobility Program for Pharmacy students has opened up a new opportunity for us to expand our knowledge and expertise in the areas of research, pharmaceutical developments and innovations. This program will also provide a chance for an exchange of cultural ideas between the Thai and the Filipino people and a time to share our culture and our views for the development of a better and stronger pharmaceutical care system.

For other questions and clarifications you may be able to contact me through my email address: **melchintapan88@yahoo.com**

Thank you for this opportunity to participate in this program in Mahidol University Faculty of Pharmacy and have a nice day.

Sincerely,

Melchin Edreen O. Tapan
BS Pharmacy (Major in Clinical Pharmacy) Student
