HELSINGIN YLIOPISTO
HELSINGFORS UNIVERSITET
UNIVERSITY OF HELSINKI

March 30, 2017

Dear Sir/Madam

This is a letter of recommendation for the study of Mr. Janne Jakola.

Janne Jakola is a conscientious and precise student. He is highly motivated and interested in his studies. Janne is also ambitious to develop and he seems to be ready to work hard to achieve the excellent grades and the best possible level of knowledge. He completed his Bachelor Degree on time and with good grades. Janne's goals are high and he would be an excellent choice for your exchange program. He will certainly do his very best.

Janne is interested in the studies of economics and his major is Pharmacoeconomics so the Master of Science Program in Social, Economic and administrative Pharmacy in Mahidol University would suit him perfectly. Student Janne Jakola's curriculum consists of following courses: Economic Evaluation of medical treatment 4 ECT, Critical Appraisal of Research Evidence 5 ECT, Research Methods in Pharmacoeconomics 5 ECT, Measuring Effectiveness of Health Care Research 5 ECT.

Janne would have a chance to collect a useful package of studies in the exchange period. His Master thesis contains cost analysis in public health care and a possible future working field will be in economic evaluation in public health. Janne Jakola could choose your courses for example Cost-Effectiveness Modelling in Health, Health Outcome Assessment, Cost-Effectiveness Analysis Alongside Clinical Trials and Observational Studies and Economic Evaluation in Public Health. These courses would have great benefit for Janne and they would help him to go for his goals and future career.

As summary, Janne Jakola would be an extremely suitable candidate for a visiting student in Mahidol University. I warmly recommend him for your exchange program and I hope that he could have the opportunity to study abroad.

Yours sincerely,

Marja Blom
